26

1 A Starting on Page 25, Figure 6; Figure 7 on
2 Page 26; Figure 8 on Page 27; Figure 9 on Page 28;
3 also, Table 18 on Page 29.

4 And those were corresponding exhibits that
5 associated with those figures.

6 Q Okay. We can dig into this a little bit
7 deeper, but I'll just go back to Figure 6 on
8 Page 25, which I believe is the first one you
9 mentioned. Can you give us an overview of what
10 data changed in Figure 6 from the prior version?

11 A Yeah. So when -- so I ran part of the
12 analysis of looking at and comparing the database.
13 I wrote a tool to help do some of the analysis, and
14 when I produced a report -- or early on I was
15 running a tool against some sample data and so when
16 I took the data from Sensei offsite to run on the
17 actual data, I didn't find out until after I
18 submitted the report that it included the sample
19 data that I had previously been working with as far
20 as testing the tool.

21 And so this amended report should reflect
22 the actual real data, so to speak. So I went back

27

1 and I had to rerun the tool against the nontest
2 sample database to produce the current results.

3 Q And when you say when you removed from
4 Sensei, what did you mean by that?

5 A The -- exporting the information from on
6 site.

7 Q And when did you first export the
8 information from Sensei?

9 A I don't remember the actual -- the date
10 offhand, but there was probably a few occasions.

11 Q The data that you exported, was it only
12 IntangibleSpring or did it include RoyaltyStat's as
13 well?

14 A Both.

15 Q How many times did you visit Sensei?

16 A Six or seven, maybe.

17 Q And the exports that you were mentioning,
18 were those done intermittently with the visits to
19 the -- the six or seven visits to Sensei?

20 A They were a part of the visits.

21 Q All right. I'm sorry, I'm trying to get --
22 this is what I'm trying to understand: The

28

1 exported data, where did you export it to?

2 A To -- well, they actually sent -- personnel
3 at Sensei, they exported to a thumb drive that they
4 gave me, and that thumb drive has been in my sole
5 possession the entire time.

6 Q So that's helpful. So what I'm really
7 asking is that during the course of the six or
8 seven visits, you, on more than one occasion, took
9 away a thumb drive with information exported; is
10 that correct?

11 A Yes, sir.

12 Q Do you know how many times you took away
13 exported information?

14 A Offhand, no.

15 Q All right.

16 So going back to Figure 6, you mentioned
17 that you were -- I guess essentially you wanted to
18 make sure you ran on the intended dataset. That's
19 the error you're correcting. Did I get that right?

20 A That's correct.

21 Q So if we look at Figure 6, can you -- and I
22 could pull the other report if we need to do this,
